

Milk tube kit ready for shipment to your customer

On request, we now offer customized sets that are already assembled for your customers.

You have the choice of what the set should contain, e.g:

- 4 milk sample tubes with identification for each udder quarter, on request with individual labeling and, depending on the test, appropriate preparation or neutral
- Disinfectant wipes
- Sealable polybag
- Matching shipping carton, also with absorbent insert on request
- Your individual examination form

Let us know what you need for your kit and we will be happy to provide you with a non-binding offer.
